

BRANCH TRANSFORMATION

Does your store need a total merchandising makeover or a simple refresh?

Then let us...

Our team have helped transform stores nationwide, simply by completing a comprehensive audit and listening to customer requirements, we are able to utilise store space to its full potential, whilst ensuring product ranges are well displayed and easily accessible to walk-in customers.

As with all our fitouts, there is no closure or downtime of the store, our ProSolve team work around store customer footfall, ensuring time and safety efficiency.

WHY **PROSOLVE** IT?

- ✔ **Provide your customers with even greater access to quality building and construction consumables.**
- ✔ **Make your store a fully functioning sales optimised store!**

- ✔ **Utilise space to its full potential.**
- ✔ **Whether you have 2m or 20m of space that requires merchandising - our team can help develop your store solution!**

What others are saying...

“The team was very professional, safe, considerate to the business and delivered a very high standard of work. During ProSolve's visit, they were informative about products, followed safety measures during the merchandising and left the area clean and tidy. We're very happy all around.”

Shop Floor Manager

“The new ProSolve stands look much better, they have transformed our shop and left us with so much more usable space. James Wiltshire was fantastic and really took the time to make sure everything was displayed well and that we were happy. Going forward we are very happy with the ProSolve brand at our Keyline store.”

Branch Sales

“The store looks amazing!”

Store Manager

“Just to give you some feedback from the depots that have already received the ProSolve treatment. They have all commented on the down to earth, friendly, passionate and approachable professionalism of the ProSolve team. They love the products and how they are displayed and look forward to working with your team, so a massive thank you to you all. We have been very impressed (although not surprising having met the team in Doncaster). Once again, thank you for making this a really easy rollout.”

Commercial Director

“It is great to have a proper shop back.”

ProSolve HQ

After

Since 1982, products bearing the ProSolve name are synonymous with quality, and our Doncaster South Yorkshire HQ is no different.

As a relatively small family run business that continues to grow from strength to strength, we knew that our brand was taking us to new heights, that's why we decided to be out with the old and in with a new transformative office, warehouse and training centre. Via a combination of vision, brand ethos and strong third-party supplier relationships, we were able to create a space for creative thinking and a place where customer's and suppliers can come and experience who ProSolve are, what we do and more importantly, how we can help them.

Whether it be:

- ✓ **Store fit-outs – applying the correct retail psychology to optimise your store sales**
- ✓ **Office and communal refurbishment – incorporating your brand and ethos into your daily environment**
- ✓ **Exterior aesthetics enrichment – helping entice your customers to buy into your brand**
- ✓ **Site Auditing – yard layout optimisation and Health & Safety**

ProSolve can help...

ProSolve Merchandising Packages

ProSolve Civils Stand

Our ProSolve Civils stand is perfect for merchants that want to sell a wider range of ProSolve products on one merchandising stand.

ProSolve Aerosol Stand and Bungee & Ratchet Stand

Our high impact stands help to raise awareness of the products that you are selling, increasing sales. Floor standing point of sale helps to attract and persuade customers and are the best way to merchandise our stock.

Aerosol Stand

Bungee & Ratchet Stand

ProSolve Twinslot Stand and Chrome & Mixed Tube Stand

One of our 2.1m stands nicely fits a wide range of twinslot and/or chrome tube products, and having the same small footprint as our ProSolve consumables stand, means that even the smallest retail store can quickly and easily sell this popular and fast moving range.

Twinslot Stand

Chrome Stand & Mixed Tube Stand

alfer® by ProSolve Profiles Stand

Size 1200 x 600mm.

A mix of our most popular profiles on one stand. We provide the display stand FOC, you simply buy the stock and start selling.

Stands arrive fully loaded on a pallet, simply unwrap it and start making money!

alfer® by ProSolve Hook Stand & Metal Sheets Stand
