TECHNICAL DATASHEET

ProSolve 200L Grit Bin (PVGB200)

A robust and weatherproof 200L grit bin designed for efficient storage of road grit, rock salt or sand.

Also known as a salt bin or grit box, this container ensures durability and ample capacity, making it ideal for winter maintenance and ensuring a reliable supply of material for de-icing roads and pathways.

Contents are easily accessed by scoop, shovel or bucket, helping to ensuring gritting is efficient.

Its substantial size allows for the effective organisation and accessibility of grit or salt, providing a practical solution for managing icy conditions.

Built to withstand harsh weather conditions, this grit bin is a dependable asset for municipalities, property management, and anyone prioritising effective winter preparedness.

Product Features

- Generous 200L Capacity
- Robust construction for long-lasting use
- Forklift Compatible
- Stackable design for compact storage throughout the summer months
- Designed to withstand harsh weather conditions
